# Introducción

---

Para la Comisión Nacional de Acuacultura y Pesca, (CONAPESCA), informar y rendir cuentas a la sociedad, son tareas imperativas de su quehacer institucional. Estas tareas las asumimos como normas de aplicación y observancia cotidianas ya que contribuyen a fortalecer nuestro sistema democrático, puesto que en la medida en que los ciudadanos logren estar mejor informados y ejerzan a plenitud su derecho a la información, no sólo contribuiremos a fortalecer y a consolidar la transparencia gubernamental, sino que propiciaremos un clima idóneo que permita impulsar la participación de los ciudadanos en las decisiones más trascendentales de nuestra vida diaria, para lograr juntos un México más competitivo y vigoroso.

En la fracción VII del artículo 120 de la *Ley General de Pesca y Acuacultura Sustentables* (24-VII-2007, D.O.F.), se indica que la Secretaría de Agricultura, Ganadería, Desarrollo Rural, Pesca y Alimentación, a través de la CONAPESCA, deberá integrar el Sistema Nacional de Información Pesquera y Acuícola, el cual tendrá por objeto organizar, actualizar y difundir la información sobre las actividades pesqueras y acuícolas, particularmente las que se realizan en nuestro país.

En esta oportunidad, presentamos el *Anuario Estadístico de Acuacultura y Pesca* correspondiente a su edición 2007, el cual integra en su contenido información estadística y gráfica muy relevante de este importante sector de la economía nacional.

Los datos contenidos en el *Anuario Estadístico de Acuacultura y Pesca 2007*, provienen de la misma información que generan los sectores vinculados a la pesca y a la acuicultura nacional, a través de los reportes de datos que ellos mismos elaboran mediante los avisos de arribo y de cosecha, así como a través de la información establecida en el Registro Nacional de Pesca y Acuicultura, proporcionada por otras fuentes de información y la derivada de métodos indirectos.

El proceso de integración de este *Anuario*, estuvo a cargo de la Dirección General de Planeación, Programación y Evaluación, con una participación muy estrecha y coordinada con las Direcciones Generales de Infraestructura, Organización y Fomento, Ordenamiento Pesquero y Acuícola, y con las Subdelegaciones de Pesca de todas las entidades del País.

Asimismo, se obtuvo información de apoyo muy valioso en algunos componentes estadísticos de este Anuario de parte de los Comités Estatales de Sanidad Acuícola de Sonora y Sinaloa.

De manera resumida, el comportamiento de la actividad pesquera y acuícola nacional durante el 2007 reflejó lo siguiente:

El volumen de la producción pesquera nacional en peso vivo de 2007 se incrementó en un 5.5% respecto a su año anterior, motivando el incremento por la captura de especies como la sardina, calamar, pulpo y camarón reportando una producción histórica de captura de altamar y acuicultura en los últimos 10 años.

El comportamiento de la producción pesquera asociada a los incrementos, estuvo influenciada principalmente por una mayor producción acuícola, asociada en gran parte al fortalecimiento de las medidas de control sanitario para la prevención de enfermedades y epizootias en la acuicultura, la incorporación de nuevas áreas de cultivo en los estados de Sonora, Nayarit y Colima y al manejo más eficiente en los sistemas de cultivo implementados, lo que permitió mayores rendimientos por unidad de superficie.

La sardina, el camarón y el atún juntos, representan el 59.2% del volumen total de la producción pesquera nacional de 2007.

Por regiones pesqueras, se percibe que los volúmenes de producción en peso vivo en el 2007 en el Litoral del Pacífico observaron un crecimiento del 7.2% respecto a 2006; en contraste, se presentó una disminución en el Litoral Golfo-Caribe de un -1.0% y en los estados sin litoral, un incremento del 2.2% respectivamente.

Cabe destacar que Sonora, Sinaloa, Baja California y Baja California Sur, juntos representaron el 73.3% del volumen total de la producción pesquera y acuícola nacional en 2007.

Respecto al valor de la producción pesquera nacional, durante 2007 se generó un monto por \$16,682 millones de pesos, cifra superior en un 5.6% a la de 2006 cuando el valor de la producción pesquera fue de \$15,796 millones de pesos.

Ocho entidades federativas concentraron durante el 2007, las cuatro quintas partes del total del valor de la producción pesquera nacional, destacando por su amplia participación en este concepto, los estados de Sonora, Sinaloa, Tamaulipas, Veracruz, Baja California, Baja California Sur, Tabasco y Campeche.

La producción de camarón de 2007 alcanzó un volumen total de 184,695 toneladas en peso vivo, cifra superior en un 4.1% a la obtenida durante el 2006.

De esa cifra, la producción proveniente de la actividad acuícola representó el 60.5% del volumen total con 111,787 toneladas; la producción de camarón de aguas marinas representó el 27.4% con 50,690 toneladas y la producción de esteros y bahías participó con el 13.0% con 22,217 toneladas.

Finalmente, la información que se ofrece en este documento pretende constituirse como una referencia básica de consulta para apoyar la administración de nuestros recursos pesqueros y acuícolas, la toma de decisiones sobre inversión y programas en el sector y el seguimiento de la evolución del sector pesquero y acuícola en su conjunto, buscando también servir a los propósitos de evaluación de la política pesquera nacional. Por tanto, cualquier comentario u opinión que sirva para enriquecer o mejorar su contenido y presentación será siempre bienvenido.

**Ing. Ramón Corral Ávila**  
Comisionado Nacional de  
Acuicultura y Pesca

**Nota:** Los cuadros que se presentan en este *Anuario Estadístico de Acuicultura y Pesca 2007*, fueron elaborados por la Dirección General de Planeación, Programación y Evaluación de la CONAPESCA con información derivada de registros y de aquella obtenida por métodos indirectos. Los datos que se incluyen en las series históricas tienen como fuente los anuarios de los años que se indican. Sólo se especifica la fuente en los casos en que ésta sea diferente, o cuando el cuadro haya sido elaborado por la citada Dirección General en colaboración con otra institución, organismo o área.

# 1. Producción Pesquera

| <b>1.1 Estadísticas Generales</b>                             |  |    |
| 1.1.1   | Volumen de la producción pesquera nacional en peso desembarcado y vivo, según destino y principales especies, 2007   | 17 |
| 1.1.2   | Volumen de la producción pesquera en peso desembarcado por litoral, según destino y principales especies, 2007   | 18 |
| 1.1.3   | Volumen de la producción pesquera en peso vivo por litoral, según destino y principales especies, 2007   | 19 |
| 1.1.4   | Participación de las principales especies en el volumen de la producción pesquera nacional en peso vivo, 2007  | 20 |
| 1.1.5   | Volumen de la producción pesquera en peso desembarcado y vivo, según litoral y entidad federativa, 2007  | 21 |
| 1.1.6   | Participación de las entidades en el volumen de la producción pesquera nacional en peso vivo, según litoral y volumen, 2007                                    | 22 |
| 1.1.7   | Participación de las entidades en el volumen de la producción pesquera nacional en peso vivo, según volumen, 2007  | 23 |
| 1.1.8   | Volumen y valor de la producción pesquera nacional en peso desembarcado, según destino y principales especies, 2007  | 24 |
| 1.1.9   | Participación de las principales especies en el valor total de la producción pesquera nacional, 2007   | 25 |
| 1.1.10  | Volumen y valor de la producción pesquera nacional en peso desembarcado, según entidad federativa, 2007  | 26 |
| 1.1.11  | Participación de las entidades en el valor total de la producción pesquera nacional, según litoral y entidad federativa, 2007                                  | 27 |
| 1.1.12  | Participación de las entidades en el valor total de la producción pesquera nacional, 2007  | 28 |
| 1.1.13  | Volumen de la producción de camarón en peso desembarcado, por origen y entidad federativa, 2007  | 29 |
| 1.1.14  | Volumen de la producción de camarón en peso vivo, por origen y entidad federativa, 2007  | 29 |
| 1.1.15  | Serie histórica de la producción de camarón en peso desembarcado, según origen, 1997-2007  | 30 |
| 1.1.16  | Serie histórica de la producción de camarón en peso vivo, según origen, 1997-2007  | 30 |
| <b>1.2 Información desagregada por entidad, especie y mes</b> |  |    |
| 1.2.1   | Volumen de la producción pesquera en peso desembarcado de las entidades con litoral en el Pacífico, según destino y principales especies, 2007                 | 31 |
| 1.2.2   | Volumen de la producción pesquera en peso desembarcado de las entidades con litoral en el Golfo de México y Caribe, según destino y principales especies, 2007 | 32 |
| 1.2.3   | Volumen de la producción pesquera en peso desembarcado de las entidades sin litoral, según destino y principales especies, 2007                                | 33 |
| 1.2.4   | Volumen de la producción pesquera en peso vivo de las entidades con litoral en el Pacífico, según destino y principales especies, 2007                         | 34 |
| 1.2.5   | Volumen de la producción pesquera en peso vivo de las entidades con litoral en el Golfo de México y Caribe, según destino y principales especies, 2007         | 35 |
| 1.2.6   | Volumen de la producción pesquera en peso vivo de las entidades sin litoral, según destino y principales especies, 2007  | 36 |
| 1.2.7   | Volumen de la producción pesquera mensual en peso desembarcado, según destino y principales especies, 2007   | 37 |
| 1.2.8   | Volumen de la producción pesquera mensual en peso vivo, según destino y principales especies, 2007   | 38 |
| 1.2.9   | Volumen de la producción pesquera mensual en peso desembarcado, según litoral y entidad federativa, 2007   | 39 |
| 1.2.10  | Volumen de la producción mensual en peso vivo, según litoral y entidad federativa, 2007  | 40 |
| 1.2.11  | Valor de la producción pesquera de las entidades con litoral en el Pacífico, según destino y principales especies, 2007  | 41 |
| 1.2.12  | Valor de la producción pesquera de las entidades con litoral en el Golfo de México y Caribe, según destino y principales especies, 2007                        | 42 |
| 1.2.13  | Valor de la producción pesquera de las entidades sin litoral, según destino y principales especies, 2007   | 43 |
| <b>1.3 Acuicultura</b>  |  |    |
| 1.3.1   | Volumen de la producción de acuicultura en peso vivo, por modalidad de cultivo, según principales especies, 2007   | 44 |
| 1.3.2   | Participación de la acuicultura en la producción pesquera nacional en peso vivo, por especie según volumen, 2007   | 44 |
| 1.3.3   | Volumen de la producción pesquera de acuicultura en peso vivo, por principales especies, según litoral y entidad Federativa, 2007                              | 45 |

|  |   |    |
|--|---|----|
| 1.3.4                                    | Participación de la acuicultura en el volumen de la producción pesquera nacional en peso vivo según litoral y volumen, 2007 | 46 |
| 1.3.5                                    | Volumen y valor de la producción pesquera de acuicultura, según principales especies, 2007                                  | 47 |
| 1.3.6                                    | Participación de la acuicultura en el valor producción pesquera nacional, 2007  | 47 |
| 1.3.7                                    | Valor de la producción pesquera de acuicultura, por principales especies, según litoral y entidad federativa, 2007          | 48 |
| 1.3.8                                    | Participación de la acuicultura en el valor de la producción pesquera nacional, según litoral y entidad federativa, 2007    | 49 |
| <b>1.4 Series históricas generales</b>   |   |    |
| 1.4.1                                    | Volumen de la producción pesquera nacional en el periodo, 1950-2007   | 50 |
| 1.4.2                                    | Volumen de la producción pesquera nacional en peso desembarcado, según principales, pesquerías, 1943-2007                   | 51 |
| 1.4.3                                    | Volumen de la producción pesquera nacional en peso vivo, por origen, grupo biológico y tipo de agua, 1985-2007              | 52 |
| 1.4.4                                    | Volumen de la producción pesquera nacional en peso vivo por destino, en el periodo 1980-2007                                | 53 |
| 1.4.5                                    | Serie histórica de la producción pesquera nacional en peso vivo, según principales especies, 1997-2007                      | 54 |
| 1.4.6                                    | Serie histórica de la producción pesquera nacional en peso vivo, según litoral y entidad federativa, 1998-2007              | 55 |
| 1.4.7                                    | Volumen de la producción de acuicultura en peso vivo, según principales especies, 1988-2007                                 | 56 |
| 1.4.8                                    | Volumen de la producción de acuicultura en peso vivo, según litoral y entidad federativa, 1997-2007                         | 57 |
| <b>1.5 Series históricas por especie</b> |   |    |
| 1.5.1                                    | Serie histórica de la producción de abulón en peso vivo, según entidad federativa, 1997-2007                                | 58 |
| 1.5.2                                    | Serie histórica de la producción de almeja en peso vivo, según entidad federativa, 1997-2007                                | 58 |
| 1.5.3                                    | Serie histórica de la producción de tñidos en peso vivo, según entidad federativa, 1997-2007                                | 58 |
| 1.5.4                                    | Serie histórica de la producción de calamar en peso vivo, según entidad federativa, 1997-2007                               | 59 |
| 1.5.5                                    | Serie histórica de la producción de camarón en peso vivo, según entidad federativa, 1997-2007                               | 59 |
| 1.5.6                                    | Serie histórica de la producción de carpa en peso vivo, según entidad federativa, 1997-2007                                 | 60 |
| 1.5.7                                    | Serie histórica de la producción de erizo en peso vivo, según entidad federativa, 1997-2007                                 | 60 |
| 1.5.8                                    | Serie histórica de la producción de guachinango en peso vivo, según entidad federativa, 1997-2007                           | 61 |
| 1.5.9                                    | Serie histórica de la producción de jaiba en peso vivo, según entidad federativa, 1997-2007                                 | 61 |
| 1.5.10                                   | Serie histórica de la producción de langosta en peso vivo, según entidad federativa, 1997-2007                              | 62 |
| 1.5.11                                   | Serie histórica de la producción de langostino en peso vivo, según entidad federativa, 1997-2007                            | 62 |
| 1.5.12                                   | Serie histórica de la producción de lisa en peso vivo, según entidad federativa, 1997-2007                                  | 63 |
| 1.5.13                                   | Serie histórica de la producción de mero en peso vivo, según entidad federativa, 1997-2007                                  | 63 |
| 1.5.14                                   | Serie histórica de la producción de mojarra en peso vivo, según entidad federativa, 1997-2007                               | 64 |
| 1.5.15                                   | Serie histórica de la producción de ostión en peso vivo, según entidad federativa, 1997-2007                                | 64 |
| 1.5.16                                   | Serie histórica de la producción de pulpo en peso vivo, según entidad federativa, 1997-2007                                 | 65 |
| 1.5.17                                   | Serie histórica de la producción de róbalo en peso vivo, según entidad federativa, 1997-2007                                | 65 |

## 2. Industrialización

---

### 2.1 Industria Pesquera Nacional

- 2.1.1 Volumen de la producción pesquera, materia prima procesada y producción obtenida por procesos, según litoral y entidad federativa, 2007 103
- 2.1.2 Volumen de la materia prima procesada y producción obtenida en la industria pesquera por proceso, según principales especies y productos, 2007 104

### 2.2 Procesos Industriales

- 2.2.1 Volumen de la materia prima procesada y producción obtenida en las plantas congeladoras por principales especies, según litoral y entidad federativa, 2007 105
- 2.2.2 Volumen de la materia prima procesada y producción obtenida en las plantas enlatadoras, por principales especies, según litoral y entidad federativa, 2007 106
- 2.2.3 Volumen de la materia prima procesada y producción obtenida en las plantas reductoras, por principales especies, según litoral y entidad federativa, 2007 106
- 2.2.4 Volumen de la materia prima procesada y producción obtenida en las plantas de otros procesos, por principales especies y productos, según litoral y entidad federativa, 2007 107

### 2.3 Series Históricas

- 2.3.1 Volumen de la producción pesquera, materia prima procesada y producción industrial pesquera, por proceso 1982-2007 108
- 2.3.2 Serie histórica del volumen de materia prima procesada y producción obtenida en la industria pesquera, según principales especies, 1998-2007 109
- 2.3.3 Volumen de los principales productos pesqueros industrializados, 1982-2007 110

## 2.1 INDUSTRIA PESQUERA NACIONAL

1/ PRODUCCIÓN OBTENIDA EN PESO NETO.

2/ COMPRENDE EL RESTO DE PRODUCTOS CONGELADOS, ENLATADOS Y DE OTROS PROCESOS.

## 3. Comercialización y Consumo

---

### 3.1 Comercialización y Consumo

|        |  |     |
|--------|--|-----|
| 3.1.1  | Balanza comercial de productos pesqueros, 2007   | 113 |
| 3.1.2  | Volumen y valor de las exportaciones por presentación y país de destino, 2007  | 114 |
| 3.1.3  | Volumen y valor de las importaciones por presentación y país de origen, 2007   | 115 |
| 3.1.4  | Balanza comercial por principales productos pesqueros, 1985-2007   | 116 |
| 3.1.5  | Balanza comercial por principales productos pesqueros, 1997-2007   | 117 |
| 3.1.6  | Volumen y valor de las exportaciones de atún y similares por presentación y país de destino, 2007                          | 118 |
| 3.1.7  | Volumen y valor de las exportaciones de camarón por presentación y país de destino, 2007                                   | 119 |
| 3.1.8  | Volumen y valor de las exportaciones de langosta por presentación y país de destino, 2007                                  | 119 |
| 3.1.9  | Volumen y valor de las importaciones de bacalao por presentación y país de origen, 2007                                    | 119 |
| 3.1.10 | Volumen y valor de las importaciones de grasas y aceites por presentación y país de origen, 2007                           | 120 |
| 3.1.11 | Volumen y valor de las importaciones de harinas de pescado por presentación y país de origen, 2007                         | 120 |
| 3.1.12 | Volumen y valor de las importaciones destinadas a la acuicultura y comercio de peces ornamentales por país de origen, 2007 | 120 |

### 3.2 Disponibilidad de Productos Pesqueros

|       |   |     |
|-------|---|-----|
| 3.2.1 | Disponibilidad de productos pesqueros, según proceso, 2007                | 121 |
| 3.2.2 | Disponibilidad de productos pesqueros, según especie y presentación, 2007 | 121 |
| 3.2.3 | Disponibilidad interna de los principales productos pesqueros, 1987-2007  | 122 |

### 3.3 Consumo

|       |   |     |
|-------|---|-----|
| 3.3.1 | Consumo nacional aparente por destino, 2007   | 123 |
| 3.3.2 | Consumo nacional aparente y per-cápita de productos pesqueros, según destino y principales especies, 2007 | 123 |
| 3.3.3 | Consumo nacional aparente y per-cápita de productos pesqueros, 1996-2007                                  | 124 |
| 3.3.4 | Consumo nacional aparente total y per-cápita de productos pesqueros comestibles, 1958-2007                | 125 |

### 3.4. Precios

|       |  |     |
|-------|--|-----|
| 3.4.1 | Precio promedio al mayoreo y menudeo de productos pesqueros comercializados en el Distrito Federal, según presentación y especie, 2007 | 126 |
| 3.4.2 | Precio promedio al mayoreo de los productos pesqueros comercializados en el Distrito Federal, según presentación y especie, 1996-2007  | 127 |
| 3.4.3 | Precio promedio al menudeo de los productos pesqueros comercializados en el Distrito Federal, según presentación y especie, 1996-2007  | 128 |

## 3.1 COMERCIALIZACIÓN Y CONSUMO

BALANZA COMERCIAL DE PRODUCTOS PESQUEROS, 2007

CUADRO 3.1.1

| CONCEPTO                          | VOLUMEN<br>(TON.) a/ | VALOR<br>(MILES DE DÓLARES) |

a/ MERCADOS DE LA VIGA Y LA NUEVA VIGA, D.F.

b/ CONSIDERADA SU COTIZACIÓN SOLO DE 1 A 3 MESES.

FUENTE: SECRETARÍA DE ECONOMÍA. SISTEMA NACIONAL DE INFORMACIÓN E INTEGRACIÓN DE MERCADOS (SNIIM).

c/ LISA Y ROBALO APARECÍAN ANTERIORMENTE CON DEFINICIÓN DE LITORAL, EN ESTE AÑO SE CONSIDERA LA ESPECIE DE LISA Y LA ESPECIE DE ROBALO A NIVEL NACIONAL

## 4. Factores de Producción

---

### 4.1 Embarcaciones

|       |   |     |
|-------|---|-----|
| 4.1.1 | Embarcaciones registradas por principales pesquerías, según litoral y entidad federativa, 2007.                 | 131 |
| 4.1.2 | Embarcaciones camaroneras por principales características, según litoral y entidad federativa, 2007.            | 132 |
| 4.1.3 | Embarcaciones atuneras por principales características, según litoral y entidad federativa, 2007.               | 133 |
| 4.1.4 | Embarcaciones sardinera-anchoveteras por principales características, según litoral y entidad federativa, 2007. | 133 |
| 4.1.5 | Embarcaciones escameras por principales características, según litoral y entidad federativa, 2007.              | 134 |
| 4.1.6 | Embarcaciones pesqueras registradas por principales pesquerías, 1970-2007.                                      | 135 |
| 4.1.7 | Embarcaciones camaroneras registradas por litoral y entidad federativa, 1979-2007.                              | 136 |

### 4.2 Infraestructura

|       |   |     |
|-------|---|-----|
| 4.2.1 | Longitud de atraque de los puertos pesqueros nacionales por tipo de pesquería, según litoral, entidad y puerto, 2007.                     | 137 |
| 4.2.2 | Industria pesquera por proceso, según litoral y entidad federativa, reportadas hasta el 2007.   | 139 |
| 4.2.3 | Producción de crías, alevines, huevos y postlarvas en Centros Acuícolas de SAGARPA, por especie, según litoral y entidad federativa, 2007 | 140 |
| 4.2.4 | Granjas camaroneras y espacio destinado a la producción por litoral, entidad y sistema de cultivo, 2007.                                  | 141 |
| 4.2.5 | Espacio disponible para engorda en granjas comerciales, a nivel nacional por especie y tipo de instalación de cultivo, 2007.              | 142 |
| 4.2.6 | Espacio disponible para engorda en granjas comerciales, por litoral y entidad federativa, 2007.   | 143 |
| 4.2.7 | Empresas pesqueras registradas según tipo de actividad por litoral y entidad federativa, 2007.  | 144 |

### 4.3 Población Pesquera

|       |   |     |
|-------|---|-----|
| 4.3.1 | Población registrada en la captura y acuacultura, según litoral y entidad federativa, 2007.                                 | 145 |
| 4.3.2 | Población registrada en la captura y acuacultura, según litoral y entidad federativa, 1997-2007.                            | 146 |
| 4.3.3 | Sociedades cooperativas de producción pesquera registradas por tipo de actividad, según litoral y entidad federativa, 2007. | 147 |
| 4.3.4 | Otras formas de organización social (OFOS) registradas por tipo, según litoral y entidad federativa, 2007.                  | 148 |
| 4.3.5 | Organizaciones sociales pesqueras registradas y su membresía, según litoral y entidad federativa, 2007.                     | 149 |

#### **4.4 Financiamiento**

|       |  |     |
|-------|--|-----|
| 4.4.1 | Financiamiento al sector pesquero por Fira-Fopesca y Bancomext, 2007.  | 150 |
| 4.4.2 | Financiamiento al sector pesquero por Fira-Bancomex, 2007.   | 151 |
| 4.4.3 | Financiamiento al sector pesquero por Fira-Bancomex según tipo de plazo 2007.  | 152 |
| 4.4.4 | Financiamiento anual al sector pesquero por Fira-Fopesca y Bancomext, según tipo de crédito, 2007. Periodo 1998-2007 | 152 |
| 4.4.5 | Financiamiento al sector pesquero por Bancomext, 1997-2007.  | 153 |
| 4.4.6 | Financiamiento al sector pesquero por Fira-Fopesca, 1998-2007.   | 153 |
| 4.4.7 | Financiamiento al sector pesquero por Fira-Fopesca según entidad federativa, 1998-2007.                              | 154 |

\*\* SE REITERA EN 2007

## 6. Estadísticas Internacionales

---

### 6.1 Actividad Pesquera

- 6.1.1 Producción pesquera mundial por fases según principales países, 2006 173
- 6.1.2 Pescadores, flota y producción de los principales países pesqueros, cifras estimadas 2006 174

### 6.2 Producción Pesquera

- 6.2.1 Producción pesquera, mundial por origen, 1966-2006 175
- 6.2.2 Producción pesquera mundial por origen, grupo biológico y tipo de agua, según principales países, 2006 176
- 6.2.3 Producción pesquera mundial, según principales países, 1997-2006 177
- 6.2.4 Producción mundial de camarón silvestre, según principales países, 1997-2006 178
- 6.2.5 Producción mundial de túnidos, según principales países, 1997-2006 179
- 6.2.6 Producción mundial de sardina, anchoveta y similares, según principales países, 1997-2006 180
- 6.2.7 Producción mundial de tiburón y cazón, según principales países, 1997-2006 181

### 6.3 Acuicultura

- 6.3.1 Producción mundial de especies cultivadas, según principales países, 1997-2006 182
- 6.3.2 Producción mundial de camarón cultivado, según principales países, 1997-2006 183

### 6.4 Industria Pesquera

- 6.4.1 Volumen de producción en la industria pesquera mundial, según principales países, 1997-2006 184
- 6.4.2 Producción mundial de camarón congelado, según principales países, 1997-2006 185

### 6.5 Comercio de Productos Pesqueros

- 6.5.1 Volumen de la exportación mundial de productos pesqueros, según principales países, 1997-2006 186
- 6.5.2 Volumen de la exportación mundial de camarón congelado, según principales países, 1997-2006 187
- 6.5.3 Valor de la exportación mundial de productos pesqueros, según principales países, 1997-2006 188
- 6.5.4 Valor de la exportación mundial de camarón congelado, según principales países, 1997-2006 189

|       |   |     |
|-------|---|-----|
| 6.5.5 | Volumen de la importación mundial de productos pesqueros, según principales países, 1997-2006 | 190 |
| 6.5.6 | Valor de la importación mundial de productos pesqueros, según principales países, 1997-2006   | 191 |
| 6.5.7 | Balanza comercial de los principales países exportadores de productos pesqueros, 1997-2006    | 192 |

## **6.6 Consumo Aparente**

|       |  |     |
|-------|--|-----|
| 6.6.1 | Consumo aparente total y per-cápita en los principales países pesqueros, 2006        | 193 |
| 6.6.2 | Consumo mundial aparente de productos pesqueros, según principales países, 1997-2006 | 194 |
| 6.6.3 | Consumo per-cápita de productos pesqueros, según principales países, 1997-2006       | 191 |

## **6.7 Población Pesquera**

|       |   |     |
|-------|---|-----|
| 6.7.1 | Población pesquera mundial, según principales países, 1992-1997 y 2002-2003               | 196 |
| 6.7.2 | Producción mundial estimada por pescador, según principales países, 1989-1997 y 2002-2003 | 197 |
| 6.7.3 | Pescadores y población económicamente activa en agricultura (PEAA), 1980,1990 y 2000      | 198 |

## **6.8 Flota Pesquera**

|       |  |     |
|-------|--|-----|
| 6.8.1 | Flota pesquera mundial según principales países, 1988-1995 y 2002, 2003  | 199 |
| 6.8.2 | Flota pesquera mundial con cubierta, según principales países, 1988-1995 y 2002, 2003  | 200 |
| 6.8.3 | Flota pesquera mundial sin cubierta, según principales especies, 1987-1995 y 2002, 2003  | 201 |
| 6.8.4 | Tonelaje de registro bruto de la flota pesquera mundial con cubierta, según principales países, 1987-1995 y 2002, 2003         | 202 |
| 6.8.5 | Tonelaje de registro bruto promedio de la flota pesquera mundial con cubierta, según principales países, 1987-1995 y 2002,2003 | 203 |

Nota: Las cifras pueden variar respecto al año anterior, debido a las actualizaciones que realiza la FAO.

1/ TONELAJE DE REGISTRO BRUTO (TRB) O ARQUEO ES EL CONTENIDO CÚBICO TOTAL DE LOS ESPACIOS PERMANENTEMENTE CERRADOS DE LA EMBARCACIÓN. LA UNIDAD DE ARQUEO EQUIVALE A 2.83 METROS CÚBICOS.

2/ CAPTURA Y CULTIVO DE ANIMALES Y VEGETALES EN PESO VIVO. EXCLUIDOS CONCHAS, ESPONJAS, CORALES, COCODRILOS Y MAMÍFEROS.

3/ LA FUENTE DESAGREGA LA INFORMACIÓN DE LA FLOTA DE MALASIA EN PENINSULA MALAYA, SABAH Y SARAWAK.

4/ INGLATERRA, GALES, ESCOCIA, IRLANDA DEL NORTE, ISLAS NORMANDAS Y DE MAN.

## **Glosario de términos**

---

**Acuicultura.** Es el cultivo de la fauna y flora acuáticas, mediante el empleo de métodos y técnicas para su desarrollo controlado en todo estudio biológico y ambiente acuático y en cualquier tipo de instalaciones de acuerdo con lo anterior, debe considerarse como acuicultura a la producción controlada de postlarvas, crías, larvas, huevos, semillas, cepas algales y esporas en laboratorio, o el desarrollo y engorda de éstos en estanques artificiales, lagos, presas, así como en instalaciones ubicadas en bahías, estuarios y lagunas costeras, en el medio marino.

**Arqueo bruto o tonelaje de registro bruto (trb).** Es el volumen total de todos los espacios cerrados de un buque (sin incluir los tanques de lastre), expresado en toneladas Moorson. Se utiliza para el cálculo de pago de derechos, cuotas, pilotaje, peajes, etc.

**Canales.** Río excavado o cause artificial que permite el cultivo de organismos acuáticos

**Capacidad de acarreo.** Tamaño de la población que puede subsistir de forma indefinida en un hábitat dado sin agotar o dañar los recursos del mismo

**Capacidad instalada.** Es la capacidad teórica de producción anual. La capacidad efectiva es la capacidad de producción anual óptima de una planta, que puede ser inferior entre el 10% y el 20% de la capacidad instalada.

**Centro acuícola.** Establecimiento dedicado a la producción de huevos, crías, alevines, semillas, larvas o postlarvas, para siembra o engorda en cuerpos de agua, granjas y unidades de producción.

**Cerquero.** Barco que utiliza como arte de pesca el cerco que consiste en que la red se cala verticalmente rodeando al banco de peces. Cuando el cerco está completado, se cobra la relinga inferior cerrándose la red en forma de bolsa. El arte se iza y los peces quedan atrapados en la parte central

**Congelado.** Proceso de conservación que consiste en someter el producto a muy bajas temperaturas en cámaras o túneles de congelación, previamente empacado o glaseado.

**Consumo nacional aparente.** Indicador que determina el volumen de producto, en peso de desembarque, que se orienta al mercado interno para consumo humano directo e indirecto. Resulta de sumar las importaciones a la producción nacional, restándole las exportaciones.

**Consumo humano directo.** Conjunto de especies pesqueras, en diversas presentaciones, que se destinan exclusivamente a la alimentación humana.

**Consumo humano indirecto.** Grupo de especies pesqueras, que se destinan a elaborar harina de pescado, con la cual se fabrican alimentos balanceados.

**Consumo per-cápita.** Indicador que resulta de dividir el consumo nacional aparente entre la población total.

**Corto plazo.** Conforme al nuevo Plan Contable, en el que el medio plazo ha dejado de tener vigencia, y de conformidad con las Directivas Comunitarias, la frontera temporal que separa el corto del largo plazo está situada en los doce meses.

**Crédito de Avío.** Son los créditos de habilitación de corto plazo el acreditado para cualquier concepto de materiales primas ya sea, capital de trabajo, material sueldos, semillas etc.

**Crédito refaccionario.** Son los créditos de largo plazo que permite incrementar los activos de capital, como maquinaria, terrenos etc.

**Cultivado.** Desde el punto de vista pesquero se define hacer los trabajos correspondientes para la producción o desarrollo de especies acuáticas.

**Cultivo extensivo.** Es el sistema de producción en el que la intervención del hombre es mínima, reduciéndose prácticamente a dos funciones: captura de postlarvas y/o alevines y despesque de adultos una vez alcanzada la talla comercial.

**Cultivo intensivo.** Sistema de producción que busca una elevada producción en el menor espacio y de la manera más rápida posible.

**Cultivo semintensivo.** Se caracteriza por: administración de alimento, adición paralela y controlada de alevines y renovación del agua.

**Cultivo en suspensión.** Corresponde a todos aquellos sistemas de producción empleados en la malacocultura que utilicen estructuras flotantes para evitar el contacto con el lecho marino.

**Disponibilidad de productos pesqueros.** Volumen de productos pesqueros en su presentación final para consumo en el mercado nacional. Comprende pescados y mariscos frescos y refrigerados, productos procesados por la industria además de los provenientes del exterior.

**Embarcación.** Cualquier género de nave o barco con el cual se puede navegar; o sea aquella construcción que, flotando, sirve para transportar por agua personas o cosas.

**Enlatado.** Proceso industrial para la conservación de productos pesqueros, que consiste en envasar el producto en latas, previa limpieza, corte, cocción y esterilización.

**Eslora.** Longitud de la embarcación medida de proa a popa, con trazos perpendiculares en la roda y el codaste.

**Especie.** Denominación genérica que identifica a los recursos pesqueros que presentan semejanzas comunes entre si.

**Estanques.** Extensión de agua artificial construida para proveer al riego, criar peces, etc. O con fines comerciales o meramente ornamentales.

**Fauna de acompañamiento.** El término fauna de acompañamiento (FA), sinónimo de pesca acompañante, se refiere a todas las especies de pescado, moluscos y crustáceos, incidentalmente capturados durante las operaciones de arrastre.

**Granjas comerciales.** Establecimiento donde se producen y expenden productos pesqueros.

**Jaulas.** Armazón de diferentes materiales que sirven para encerrar organismos, peces. Aves etc.

**Largo plazo.** Conforme al nuevo Plan Contable, en el que el medio plazo ha dejado de tener vigencia, y de conformidad con las Directivas Comunitarias, la frontera temporal que separa el corto del largo plazo está situada a más de doce meses.

**Longitud de atraque.** El tramo atracadero o muelle que ocupa una embarcación para sus maniobras de carga y descarga.

**Mar abierto.** Cada país costero tiene dominio de 200 millas marinas contadas desde la costa al mar, después de esas 200 millas el mar u océano se transforma en patrimonio de la humanidad.

**Materia prima.** Especies y productos pesqueros no elaborados que recibe la industria pesquera para su transformación.

**Malacocultura.** Rama de la acuicultura que se ocupa del cultivo de moluscos.

**Otros procesos.** Diversas formas de procesamiento de productos pesqueros, que comprende plantas e instalaciones rústicas deshidratadoras, ahumadoras, seco-saladoras y cocedoras.

**Otros sin registro oficial.** Toda aquella captura que se estima por métodos indirectos.

**Pesca.** Es el acto de extraer, capturar, o recolectar, por cualquier método o procedimiento especies biológicas o elementos biogénicos, cuyo medio de vida total, parcial o temporal sea el agua.

**Pesca de altura.** Tipo de captura que realizan los barcos, desde profundidades y distancias a la costa propicias para su operación hasta las aguas oceánicas, rebasando incluso los límites del mar territorial y la Zona Económica Exclusiva.

**Pesca de ribera.** Captura o extracción que se realiza en bahías, sistemas lagunares o estuarinos y en el mar, hasta un límite de tres millas náuticas a la costa (5.6 Km.). En la mayoría de los casos se practica con embarcaciones menores.

**Peso desembarcado.** Se refiere al que conserva el producto al ser declarado al desembarque en sus diversas modalidades: descabezado, fileteado, desviscerado, en pulpa, rebanado u otras.

**Peso neto.** Es la unidad de medida de la mercancía expresada en Kilogramos, sin incluir el embalaje.

**Peso vivo.** Peso total del producto en el momento de obtenerse de su medio natural; se determina con base en el peso desembarcado, aplicando factores de conversión establecidos por el Instituto Nacional de la Pesca, de acuerdo con la metodología universalmente empleada por la FAO.

**Pesquerías acuaculturales.** Comprenden la explotación pesquera en embalses epicontinentales donde se practica la pesca comercial sustentada tanto en las siembras sistemáticas de crías de especies tales como carpa, tilapia, bagre y lobina, producidas por los centros acuícolas dependientes de los gobiernos estatales y federal, así como en las derivadas del manejo de existencias silvestres de crías de peces, postlarvas de langostino, renacuajos y similares.

**Piscicultura.** Se define como el cultivo de peces

**Población económicamente activa.** Es un término acuñado por la ciencia económica para describir, dentro de cierto universo de población delimitado, al subconjunto de personas que son capaces de trabajar y desean hacerlo.

**Precio de playa.** Precio que se obtiene por la venta de primera mano de los productos pesqueros y acuícolas.

**Producto terminado.** Volumen resultante de transformar la materia prima mediante los procesos industriales.

**Reducción.** Proceso mediante el cual las especies se someten a altas temperaturas para su deshidratación; posteriormente se muelen para obtener harina y aceite.

**Registro Nacional de Pesca.** Instrumento administrativo de la política pesquera establecido por la Ley de Pesca, orientado a la formación permanente del inventario de recursos o factores productivos disponibles para desarrollar la pesca.

**Sistemas controlados.** Cubren la producción generada en instalaciones creadas para el cultivo de especies acuícolas mediante la aplicación de un modelo tecnológico que descansa en el ejercicio de diversas rutinas de trabajo (bombeo de agua, alimentación de animales, fertilización, control de densidades, entre otras).

**Tonelaje neto.** Capacidad de carga de la embarcación, sin incluir los tanques de agua y de combustible, así como los espacios de servicio, expresada en toneladas de arqueo. Reglamentariamente también se utilizan los términos de tonelaje de registro neto o arqueo neto.

**Uso industrial.** Grupo de especies, productos o subproductos no comestibles cuyo destino principal es su transformación en la industria químico-farmacéutica o la elaboración de artesanías.

**Varero.** Tipo de embarcación de pelágicos mayores 8 que utiliza cebo para atraer la presa y pesca con una vara o artefacto parecido a caña de pescar sin carnada
